Core Ideological Principles

Sovereignty and National Identity

At the heart of Marcelo Gullo Omodeo's ideology lies a profound emphasis on sovereignty—the idea that nations must retain control over their resources, policies, and cultural narratives free from external influences. He advocates for a renewed sense of national pride rooted in historical resilience and cultural uniqueness.

He contends that Latin American countries have historically been subjected to external hegemonies—be they colonial, imperial, or economic—and that reclaiming sovereignty is essential for true independence and development.

Critique of Western Liberalism and Globalization

Gullo Omodeo has been outspoken in his critique of Western liberal paradigms, particularly those associated with globalization, which he views as mechanisms that erode national sovereignty and impose uniform cultural standards. He posits that such ideas often serve the interests of global elites at the expense of local identities and traditions.

He advocates for a regionalist approach, promoting Latin America's distinct cultural and economic paradigms, rather than blindly adopting Western models.

Cultural Revival and Latin American Identity

A recurring theme in his work is the importance of cultural revival.
