Understanding Consonant Blends and Their Role in Reading Development

What Are Consonant Blends?

Consonant blends are combinations of two or three consonants where each consonant sound is heard distinctly when

pronounced. For example, in the blend cl, both the c and l sounds are pronounced: cl-ap, cl-og, cl-ear. These blends are different from digraphs, where the two letters combine to produce a new sound (like sh or ch), because in blends, each consonant sound is maintained.
