He emphasizes that the primary objective of financial accounting is to ensure transparency and accountability, thereby facilitating informed decision-making.

Fundamental Assumptions and Principles

R Narayanaswamy's approach to financial accounting is rooted in several fundamental principles and assumptions, including:

1. **Accrual Principle:** Revenues and expenses are recognized when they occur, regardless of when cash is received or paid.
2. **Consistency Principle:** Accounting policies and procedures should be applied consistently over time.
3. **Going Concern Assumption:** The business is assumed to continue its operations indefinitely unless there is evidence to the contrary.
4. **Matching Principle:** Expenses should be matched with the revenues they help generate in the same period.
5. **Materiality:** Only significant items that influence decision-making need detailed disclosure.

These principles form the backbone of sound financial reporting and are extensively discussed in Narayanaswamy's teachings.
