- Adult Baby: Individuals who engage

in age regression, adopting behaviors and attire associated with infants or young children, sometimes for emotional soothing or stress relief. - Diaper Lover: Those who derive gratification from wearing diapers, regardless of engaging in age regression behaviors. While these identities can sometimes overlap, they are distinct categories within the broader ABDL community.

The Origins of ABDL Stories

The phenomenon of ABDL stories and communities emerged from a combination of psychological, sexual, and social factors. Early online forums in the 1990s and 2000s provided spaces for individuals to share experiences, seek support, and normalize their behaviors.
